### **CURRENT CONTENT**

*(Technical Journals)*

*(A Monthly Current Awareness Service from Technical Journals)*

**Vol.5 No.10, October, 2021**

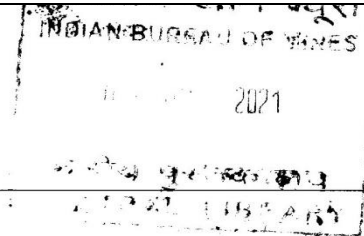

The Central Library, IBM, Nagpur is subscribing the technical journals and also receiving them on complimentary basis on various subjects like Geology, Mining, Mineral Economics etc. These Technical Journals make up an important collection of latest scientific information. The library is rendering Reference Service to its users from these technical Journals (Article Indexing is one of them). Central Library, IBM provides Current Content Service from these technical journals in the name of "GEM" since 2006 on half yearly basis in print form. To expand this service to the IBM Offices all over India i.e. H.Q., Zonal & Regional Offices and to take a call of time, the Controller General, IBM desired to make this service online on monthly basis. The library staff made efforts to make it successful. This is the 10<sup>th</sup> issue of Volume-5 for this service named "तकनीकी पत्रिका विषय - सूची" (Current Content- A Monthly Current Awareness Service from Technical Journals) Vol.5 No.10, October 2021.

It will be highly appreciated if the valuable feedback is reciprocated. If some article as per content list is found to be of use by the reader the same may be requested and the library will send the scanned copy of the article to the interested reader.

## FEATURES

### Welcome to MINExpo

*The NMA hosts the world's largest mining trade show in Las Vegas* ..... 40

### New Solutions Improve Processing, Step by Step

*Top tier innovative solutions are available for each step of the flow sheet, and field results show they help improve the profitability of an operation* ..... 48

### Narrow Vein Mining Fit for the Future

*Selective mining techniques are evolving to take advantage of new technologies. E&MJ investigates*..... 58

### Managing the Data Avalanche

*Models built on mountains of data can be impressive, but they can slide into disaster unless a company has the tools, training and data literacy to handle the challenges of digitalization*..... 66

### Taking a Systems Approach to Pit Dewatering

*How to optimize the design and performance of mine pit dewatering systems*..... 72

### Good Times Lie Ahead for African Diamond Mining

*After nearly a decade of stagnation, global sales are recovering rapidly and a shortfall of production makes prospecting viable again* ..... 78

### Origins of Optimum

*A Milwaukee-based group builds an aftermarket service company for mining-class crushers*..... 82

### Vale Completes Work on Tailings Dams

*Brazil miner decharacterizes Fernandinho dam and builds containment structure*... 86

### A Long History of Feast and Famine

*Studying the cyclic nature of metals markets reveals some interesting trends*... 90

### Proposal for Dry-Stable Self-Fluxing Sulphide Tailings

*A new approach to handling fines could improve the strength of tailings storage facilities and solve acid mine drainage problems*..... 94
