### ***CURRENT CONTENT***

*(Technical Journals)*

*(A Monthly Current Awareness Service from Technical Journals)*

***Vol.3 No.4, April, 2019***

The Central Library, IBM, Nagpur is subscribing the technical journals and also receiving them on complimentary basis on various subjects like Geology, Mining, Mineral Economics etc. These Technical Journals make up an important collection of latest scientific information. The library is rendering Reference Service to its users from these technical Journals (Article Indexing is one of them). Central Library, IBM provides Current Content Service from these technical journals in the name of "GEM" since 2006 on half yearly basis in print form. To expand this service to the IBM Offices all over India i.e. H.Q., Zonal & Regional Offices and to take a call of time, the Controller General, IBM desired to make this service online on monthly basis. The library staff made efforts to make it successful. This is the 4<sup>th</sup> issue of Volume-3 for this service named "तकनीकी पत्रिका विषय - सूची" (Current Content- A Monthly Current Awareness Service from Technical Journals) Vol.3 No.4, April, 2019.

It will be highly appreciated if the valuable feedback is reciprocated. If some article as per content list is found to be of use by the reader the same may be requested and the library will send the scanned copy of the article to the interested reader.

The image shows the cover of the JPC Bulletin on Iron & Steel, Volume XVII, Issue 12, December 2018. The cover features a large, glowing steel ingot in the center, with various headlines around it: "Steel in Retrospect", "Steel 10 2018", "Budget 2018-19", "Environment", "Steel Industry", "Innovation", "Refractory Industry", "JPC 100 YEARS", "Joint Plant Committee", "Materials", "Etc.", and "Ironmaking". The JPC logo is in the top left, and the title "JPC BULLETIN ON IRON & STEEL" is in the top center. The word "CONTENTS" is written vertically on the right side. Below the cover, there is a photograph of a steel mill with a large, glowing steel ingot being processed. A library stamp from the Indian Bureau of Standards is visible on the left side of the photograph.

### In This Issue

Komatsu has been on the cutting edge of autonomous mining machinery for the past 30 years. In 2016, the company advanced the concept of a driverless haul truck to a new level when it displayed its Innovative Autonomous Haulage Vehicle at MINExpo. ME's Managing Editor, Bill Gleason, joined some other mining editors in Tucson for a look at Komatsu's autonomous mining machinery, page 28. Tailings are one of the most important liabilities for mining operations because of their large proportion in relation to the ore mined. Sustainable tailings management requires responsible handling, making it one of the industry's greatest challenges, page 22. Cover photo courtesy of Komatsu.
