5.1 Mineral-wise Distribution	68
5.2 State-wise Distribution	69
5.3 Area-wise Distribution	70

## 1. Introduction

India has a total geographical area of about 328 million hectares. Of this, the mining lease area, except for fuel and atomic minerals, constitutes around 0.14% (4,59,714 hectares). The position of mining leases as on 31.3.2006 reveals that there are as many as 7,610 mining leases ( compared to 7,527 in the previous year) granted in the country by the State Governments covering 60 minerals (excluding coal, lignite, petroleum, natural gas, atomic minerals and minor minerals) with a total area of 4,59,714 hectares and spread over 23 States. These 60 minerals are broadly classified into metallic and non-metallic minerals. This bulletin highlights State-wise, sector-wise and district-wise distribution of mining leases, prospecting licences and reconnaissance permits, frequency distribution of mining leases, etc. Though apparently negligible, this is still an important land use segment as it contributes to economic growth of the country. Besides, it calls for environmental protection as land degradation takes place during the process of mining activities.

India is gifted with a wide variety of naturally occurring minerals. These are being exploited to cater to the needs of domestic mineral based industries as well as less exports to earn foreign exchange. Today, as many as 60 major metallic and non-metallic minerals are being exploited in the country excluding coal, atomic and some minor minerals.

The Indian mineral sector is opened fully to private sector including domestic and foreign. The Government had taken a series of new policy initiatives under the overall framework of the National Mineral Policy, 1993 for the growth of mineral sector. As per the amendment to the MMRD Act ( now re-designated as MMDR Act), 1957 in December, 1999 a new entity termed ‘Reconnaissance Permit’ covering essentially prospecting licences over large areas has been introduced. In this amended Act, the limit of maximum areas of reconnaissance permits, prospecting licences and mining leases is 10,000 sq. km., 25 sq km and 10 sq km respectively in a State. This provision may facilitate the entrepreneurs in acquiring more number of “reconnaissance permits, prospecting licences and mining leases” leading to increased mineral production. Besides, the amended Act provides powers to the State Governments for grant of prospecting licences and mining leases in areas which are not compact and contiguous in respect of minerals other than fuel and atomic minerals.

Under Rule 57 (1) of MCR,1960, a copy of every reconnaissance permit, ( no provision for renewal of reconnaissance permits), prospecting licence and mining lease granted or renewed shall be supplied by each State Government within two months of such grant or renewal to the Controller General, Indian Bureau of Mines. Besides, under Rule 57 (2) of MCR,1960 all the State Governments / Union Territories are required to submit to the Controller General, Indian Bureau of Mines, a consolidated annual return of reconnaissance permits/prospecting licences/mining leases granted or executed in proforma ‘A’, prospecting licences/mining leases renewed in proforma ‘B’ and termination of mining leases and reasons for termination in proforma ‘C’ for the preceding financial year ending March. The above statements for the previous financial year are required to be submitted to IBM on or before 30th June each year by the State Government. From such information received from all the State Governments under statutory provisions, the information pertaining to mining leases and prospecting licences are being processed and updated through computerization. Subsequently, the required outputs are being generated.

## 2. Land Use Scenario

India's Geographical area is about 328 million hectares. The entire geographical area is broadly classified into 8 segments including mining lease areas which are as follows.

S. No.	Area/ Segment	Total area in Million hectares	Percentage of Area
1.	Agricultural , Cultivable & culturable land	18.2845	55.63
2.	Permanent pastures & other grazing land	10.499	3.19
3.	Culturable waste ( potentially arable )	1.3483	4.10
4.	Forest	69.467	21.13
5.	Barren & Un-culturable land	17.762	5.40
6.	Non-agricultural land	24.274	7.38
7.	Mining Lease Area	0.459	0.14
8.	Other Area ( no information available )	9.937	3.03
Total		328.726	100.00

Source: Directorate of Economics & Statistics, Ministry of Agriculture. Directory of Mining Leases , 2006,  
Indian Bureau of Mines.

The mining lease area, constitutes around (0.14%) (4,59,714.37 hectares) of the geological area. Out of the geographical area, almost two-third are under agricultural, cultivable, permanent pasture and grazing lands. However , mining lease area continues to be an important segment and contributing factor to the economy of the country. At the same time due attention is to be paid for environment protection as land degradation takes place during the process of mining activity.

### **3. Mining Leases**

#### **3.1 STATEWISE ANALYSIS**

As on 31.3.2006, there were 7,610 number of mining leases granted by 23 State Governments for 60 different minerals, covering an area of 4,59,714 hectares in the country. States rich in minerals where maximum number of mining leases granted are Andhra Pradesh (20.24%) followed by Rajasthan (16.50%), Gujarat (13.92%), Madhya Pradesh (9.92%), Tamil Nadu (6.32%), Karnataka (6.10%), Orissa (5.06%), Jharkhand (4.24%), Chhattisgarh (3.82%), Maharashtra (3.31%) and Goa (3.28%). These eleven States together account for about 93% of total leases executed and remaining twelve States account for remaining about 7% of mining leases.

The maximum mining lease area covered by different States are Rajasthan (23.14 %) followed by Orissa (14.57%), Andhra Pradesh (11.49%), Karnataka (8.08%), Jharkhand (7.57%), Chhattisgarh (6.89%), Gujarat (5.07%), Madhya Pradesh (4.21%), Goa (3.95%), Maharashtra (3.70%), West Bengal (2.52%) and Haryana (2.43%). These twelve States account for about 94% of total mining lease areas executed and remaining eleven States represent 6%.

The State-wise mining lease distribution together with lease areas as well as State-wise/district-wise distribution of mining leases as on 31.03.2006 are given in Tables-1 to 4.

**TABLE-1 :STATEWISE SUMMARY OF LEASE DISTRIBUTION  
(As on 31.03.2006)**

S. No.	State	No. of Lease	Percentage	Lease Area (Hect.)	Percentage

### **3.2 DISTRICT-WISE ANALYSIS**

#### **(i) High Mineral Potential Districts :**

District-wise analysis indicates that the total number of mineral bearing districts are around 279 falling in 23 States in the country. Out of these, 16 districts in 5 States are considered as highly potential districts in each of which more than 100 mining leases granted. There are 2,684 mining leases granted covering an area of 85,337 hectares in the country. These constitute 35% of total number of mining leases and cover around 18% of total area. Information on the number of mining leases granted in highly potential districts is furnished in Table-5.

**TABLE - 5 : HIGH MINERAL POTENTIAL DISTRICTS**

S. No.	District	No. of leases	No. of Minerals	Area of leases (Hect.)	State
1.	Anantapur	142	14	3,245.55	Andhra Pradesh
2.	Cuddapah	205	17	5,640.05	Andhra Pradesh
3.	Kurnool	230	14	5,797.55	Andhra Pradesh
4.	Mahbubnagar	104	2	667.63	Andhra Pradesh
5.	Nellore	232	10	4,229.69	Andhra Pradesh
6.	Prakasam	108	6	2,199.71	Andhra Pradesh
7.	South Goa	150	3	10,930.66	Goa

15.	Rajsamand	130	7	5600.69	Rajasthan
16.	Udaipur	108	12	12,407.66	Rajasthan
<b>Total</b>		<b>2,684</b>		<b>85,336.98</b>	

(ii) **Medium Mineral Potential Districts :**

Mining leases granted between 51 to 100 is considered as medium potential districts. There are 1,959 mining leases granted in 28 districts covering an area of 1,31,682 hectares in the country. These constitute 26% of total number of mining leases and cover over 29% of total area. Information on the number of mining leases granted in medium potential districts is furnished in Table-6.

**TABLE -6 : MEDIUM MINERAL POTENTIAL DISTRICTS**

S. No.	District	No. of leases	No. of minerals	Area of leases (Hect.)	State
1.	Nalgonda	55	4	5066.03	Andhra Pradesh

28.	Allahabad	52	1	1,419.23	Uttar pradesh
<b>Total</b>		<b>1,959</b>		<b>131,681.92</b>	

**(iii) Low Mineral Potential Districts :**

Mining leases granted between 1 to 50 is considered as low mineral potential districts. There are 2,967 mining leases granted in 235 districts covering an area of 2,42,695 hectares in the country. These account for 39% of the leases, covering 53% of the total area. State-wise distribution of low potential districts and total area covered and no. of leases are given in Table-7.

**TABLE - 7 : LOW MINERAL POTENTIAL DISTRICTS**

### **3.3 MINERAL-WISE ANALYSIS**

There are 60 naturally occurring minerals for which the mining leases are granted in the country. These minerals are broadly classified into scheduled and non-scheduled minerals.

#### **(i) Scheduled Minerals**

The scheduled minerals include ferrous, non- ferrous and noble metals, industrial mineral and precious mineral. The ferrous group includes chromite, iron ore and manganese ore; non-ferrous group consists of bauxite, copper and lead & zinc ores; noble metal group includes gold and industrial mineral group includes asbestos. At present, there are no commercial mining leases for silver and platinum group of metals in the country.

Scheduled minerals for which mining leases are granted as on 31.3.2006 are nine in number and the number of leases are 1,097 or 14% of the total mining leases with an area of hectares 1,59,350.63 or 35% of the total mining area in the country. Out of the nine scheduled minerals, the total number of mining leases granted for iron ore is placed at 485 followed by bauxite (286), manganese ore (222), asbestos (37), chromite (30) and copper ore (15). These six minerals accounts for 1,075 mining leases (98%) of the mining leases with an area of 1,44,467.95 hectares (91%) of the lease area of scheduled minerals. The distribution of mining leases for scheduled minerals are given in Table-8.

**TABLE-8 : DISTRIBUTION OF MINING LEASES FOR SCHEDULED MINERALS**

<b>S.No.</b>	<b>Mineral</b>	<b>No. of leases executed</b>	<b>Area in hectares</b>
1.	Asbestos	37	1,764.60
2.	Bauxite	286	26,069.14
3.	Chromite	30	9,163.47
4.	Copper ore	15	10,276.40
5.	Diamond	2	576.51
6.	Gold	10	6,702.44
7.	Iron ore	485	78,319.40
8.	Lead & zinc ore	10	7,603.70
9.	Manganese ore	222	18,874.94
<b>Total</b>		<b>1,097</b>	<b>159,350.60</b>

**(ii) Non-scheduled Minerals**

There are 51 non-scheduled or industrial minerals, for which leases are granted in the country. In all, there are 6,513 (86%) of the total mining leases granted for these minerals with an area of 3,00,363.77 hectares (65%) of the total lease area. Distribution of mining leases for non-scheduled minerals are given in Table-9.

**TABLE- 9 : DISTRIBUTION OF MINING LEASES FOR  
NON-SCHEDULED MINERALS**

### 3.4 FREQUENCY DISTRIBUTION OF MINING LEASES

The number of mining leases so far executed for various minerals are classified into eight categories :

- Category -I :** Includes minerals for which number of mining leases executed are between 1,001-2000;
- Category -II :** Includes minerals for which number of mining leases executed are between 501 and 1,000;
- Category -III :** Includes minerals for which number of mining leases executed are between 401 and 500;
- Category -IV :** Includes minerals for which number of mining leases executed are between 301 and 400;
- Category -V :** Includes minerals for which number of mining leases executed are between 201 and 300;
- Category -VI :** Includes minerals for which number of mining leases executed are between 101 and 200;
- Category -VII:** Includes minerals for which number of mining leases executed are between 51 and 100 and
- Category -VIII:** Includes minerals for which number of mining leases executed are between 1 and 50.

Number of minerals, their mining leases and area of leases covered category-wise are summarised in Tables 10.

**TABLE 10 : CATEGORY - WISE NUMBER OF MINERALS, THEIR MINING LEASES AND AREA OF LEASES**

Category	No. of mineral	No. of mining leases		Lease area	
		No. of leases	Percentage	In hect.	Percentage

### 3.5 MUSEUM DISTRICTS OF MINERALS

The concentration of both number and wide variety of minerals is confined to as many as 68 districts covering 12 States which have more than 4 varieties of minerals. The districts and occurrences of wide variety have been listed in Table-3. Cuddapah, Anantpur, Kurnool districts of Andhra Pradesh; Belgum district of Karnataka; Jaipur, Bhilwara, Udaipur districts of Rajasthan are considered as museum districts of minerals. These seven districts are endowed with as many as 17, 14, 14, 13, 13, 12, 12 varieties of minerals respectively.

### **3.6 SECTOR-WISE DISTRIBUTION OF MINING LEASES**

Mining leases are in force both in the private and public sectors including Central and State Govt. Undertakings. Out of the total 7,610 mining leases in the country, 473 (6%) leases are executed in the public sector extending over an area of 1,57,191.57 hectares (34%) of total mining lease area executed and the remaining 7137 (94%) mining leases with an area of 3,02,522.80 hectares (66%) are in the private sector. Most of the scheduled minerals namely copper ore, lead & zinc ores, gold, iron ore, manganese ore and chromite and non-scheduled minerals like limestone, dolomite, pyrite, apatite, barytes, fluorite, asbestos, kyanite, magnesite, etc. are being exploited by both public and private sectors.

#### **(i) Central Government Public Sector Undertakings :**

There are 194 mining leases executed in 18 States for different minerals, covering an area of 81,822.15 hectares. The States rich in minerals where maximum number of mining leases executed for Central Govt. Public Sector Undertakings are Maharashtra 32 (16.49%), followed by Andhra Pradesh 28 (14.43%), Madhya Pradesh 25 (12.88%), Rajasthan 22 (11.34%), Jharkhand 20 (10.30%), Chhattisgarh 19 (9.79%), Tamil Nadu 12 (6.18%) and Orissa 11 (5.67%). These eight States together accounts for over 87% of total leases executed and remaining 10 States accounts for 13%.

The maximum mining lease area covered by different States are Jharkhand (18.88%) followed by Chhattisgarh (18.42%), Orissa (16.51%), Karnataka (14.06%), Rajasthan (13.69%), Andhra Pradesh (7.52%), and Madhya Pradesh (6.46%). These seven States accounts for 96% of total lease area executed and remaining States accounts for 4%.

#### **(ii) State Government Public Sector Undertakings :**

There are 279 number of mining leases executed in 18 States for different minerals, covering an area of 75,369.42 hectares. The States rich in minerals where maximum number of mining leases executed are Karnataka & Rajasthan 52 (18.63%) each followed by Tamil Nadu 47 (16.84%), Orissa 44 (15.77%), Maharashtra 16 (5.73%), Andhra Pradesh 13 (4.65%), and Gujarat 11 (3.94%). These seven States together accounts for over 84% of total leases executed and remaining 11 States accounts for remaining 16%.

The maximum mining lease area covered by different States are Rajasthan (37.66%), followed by Orissa (31.85%), Karnataka (10.53%), Gujarat (4.79%), Uttar Pradesh (4.43%), and Tamil Nadu (3.43%). These six States accounts for 93% of total lease area executed and remaining States accounts for remaining 7%.

State-wise and Sector-wise distribution of mining leases is given in Tables- 12 to 14.

**TABLE-12 : SECTOR WISE DISTRIBUTION OF MINING LEASES (AS ON 31/03/2006)  
(PUBLIC SECTOR AND PRIVATE SECTOR)**

### **3.7 YEAR-WISE STATUS OF EXPIRY OF MINING LEASES**

Every mining lease is granted for a stipulated period and once this period expires the lessees shall have to apply for renewal to the respective State Government as per the provisions under MCR , 1960. The period of leases varies from minimum 20 years to a maximum of 30 years. Further renewal (s) are possible for period or periods not exceeding 20 years in each case. Out of the total number of leases in the Directory (7,610), more than 893 leases will expire between 2007 to 2013 . The yearwise break up of expiry of leases and State-wise and year-wise break up of expiry of leases are given in Tables-15 and 16.

**TABLE - 15 : YEAR-WISE STATUS OF EXPIRY OF MINING LEASES**  
**(As on 31/03/2006)**

## 4. Prospecting Licences

Under the Mines & Minerals (Development & Regulation) Act, 1957, “Prospecting Licence” (PL) means a licence granted for the purpose of undertaking “prospecting operations” with a view to exploring, locating or proving mineral deposits. The State Government and Union Territories are empowered to grant/renew/revoke prospecting licences ( PL) under provision of Mineral Concession Rules, 1960.

The area restrictions for prospecting licences have been substantially liberalized by making such restrictions applicable State wise instead of the country as a whole.

### **4.1 STATEWISE DISTRIBUTION OF PROSPECTING LICENCES**

As per information received from the State Governments/Union Territories, 83 prospecting licences were executed covering an area of 12,072.42 hectares during 2005-06 as compared with 58 prospecting licences covering 7,413 hectares area during 2004-05. The Statewise distribution of prospecting licences executed during 2003-04 to 2005-06 is given in Table-17.

**TABLE - 17: PROSPECTING LICENCES EXECUTED, 2003-04 and 2005-06  
(By States)**

State	2003-04		2004-05		2005-06	
	No.	Area (Hect.)	No.	Area (Hect.)	No.	Area (Hect.)
Andhra Pradesh	10	1628	-	-	4	1169
Assam	-	-	-	-	1	2500

Tamil Nadu	-	-	1	2	3	4
Uttaranchal	4	799	3	796	2	21
<b>Total</b>	<b>133</b>	<b>13250</b>	<b>58</b>	<b>7413</b>	<b>83</b>	<b>12072</b>

*Area figures rounded off.*

The mineral rich States where prospecting licences so far executed during 2005-06 were Rajasthan (34) followed by Chhattisgarh (15), Jammu & Kashmir (10) and Maharashtra (7). Rajasthan alone accounted for 41% licences while remaining 10 States shared 59% of total prospecting licences executed. Arealwise, Rajasthan covered 4239 hectares area, followed by Assam 2500 hectares, Sikkim 1700 hectares, Andhra Pradesh 1169 hectares, Maharashtra 725 hectares, Chhattisgarh 580 hectares and Jammu & Kashmir 535 hectares. These seven States covered 11448 hectares area (95%) and remaining four States covered (5%) area of total area executed for prospecting licences.

#### **4.2 MINERAL-WISE DISBTRIBUTION OF PROSPECTING LICENCES**

Mineralwise, in 2005-06, limestone accounted maximum 20 prospecting licences executed followed by Dolomite (4) PL's, Calcite, Chinaclay, Moonstone, Ochre, Soapstone (3) PL's each, Felspar, Gypsum, Iron ore, Mica, Quartz, Sillimanite (2) PL's each, Barytes, Fireclay, Moulding sand, Phosphate, Silica sand (1) PL's each. Other associated Minerals accounted for 27 prospecting licences (33%) executed during 2005-06. The mineral wise distribution of prospecting licences executed during 2003-04 to 2005-06 is given in Table -18.

**TABLE -18 : PROSPECTING LICENCES EXECUTED , 2003-04 AND 2005-06  
(By Minerals)**

Mineral	2003-04		2004-05		2005-06

<b>Total</b>	<b>133</b>	<b>13,250</b>	<b>58</b>	<b>7,413</b>	<b>83</b>	<b>12072</b>

*Area figures rounded off.*

#### **4.3 AREA-WISE DISTRIBUTION OF PROSPECTING LICENCES**

Areawise analysis indicated that limestone covering an area of 2843 hectares followed by phosphate (2500 hect), dolomite (1712 hect.), Mica ( 230 hect.), Barytes (235 hect), Felspar (192 hect.), China clay (190 hect), Bauxite (146 hect), Iron ore (141 hect) and associated minerals covered 3627 hectare. These ten minerals covered 11816 hectares or (98%) of total prospecting licences area covered. Remaining nine minerals cover the rest of area executed for prospecting licences.

#### **4.4 SECTOR-WISE DISTRIBUTION OF PROSPECTING LICENCES**

The sectorwise distribution of prospecting licences and area covered during 2003-04 to 2005-06 is given in Table-19.

**TABLE - 19 : SECTOR-WISE DISRIBUTION OF PROSPECTING LICENCES,  
2003-04 to 2005-06**

Private %	96.25	96.86	100	100	100	100
<b>Total</b>	<b>133</b>	<b>13250</b>	<b>58</b>	<b>7413</b>	<b>83</b>	<b>12072</b>

## **5. Reconnaissance Permits**

The provision of Reconnaissance Permit (RP) was introduced with effect from 20.12.1999 under the Mines & Minerals (Development & Regulation) Act, 1957 and from 18.1.2000 under the Mineral Concession Rules, 1960 & Mineral Conservation and Development Rules, 1988 made under the Act. Reconnaissance Permit is a permit granted for the purpose of undertaking "reconnaissance operations" which means any operation undertaken for preliminary prospecting of a mineral through regional, aerial, geophysical or geochemical surveys and geological mapping, but does not include pitting, trenching, drilling (except drilling of boreholes on a grid specified from time to time by the Central Government) or subsurface excavation.

During 2005-06, 20 reconnaissance permits approved by Central Government / Executed by State Government covering an area of 26,368 sq km distributed in 22 districts of Chhattisgarh, Karnataka, Kerala, Madhya Pradesh, Orissa, and Rajasthan for precious and high-value minerals like diamond, gold, silver and associated minerals; non-ferrous minerals like copper, lead & zinc ores; strategic minerals/ores like nickel, bismuth, cadmium.

During 2005-06 approvals/ execution of reconnaissance permits have been accorded to eight companies; viz., M/s ACC-RIO TINTO Exploration Ltd., AMIL Mining India (Pvt.) Ltd., M/s BHP Khanij Anveshan Pvt. Ltd., M/s Crown Mining Pvt. Ltd., M/s De Beers India Prospecting Pvt. Ltd., M/s Deccan Gold Mine Pvt. Ltd., M/s Metal Mining India Ltd., and Metmin Finance & Holding Pvt. Ltd.

### **5.1 MINERAL –WISE DISTRIBUTION OF RECONNAISSANCE PERMITS**

During 2005-06 , fourteen RPs approved / executed for diamond and associated minerals covering an area of 19,502 sq km (74%) compared with eleven RPs covering an area of 21,295 sq km (51%) during 2004-05. Two RPs approved / executed for copper, lead, zinc, gold, silver, bismuth, cadmium, nickel and associated minerals covering an area of 2800 sq km (11%) compared with nine RPs covering an area of 15,658 sq km (37%). None RPs approved / executed for diamond , precious stone & other associated minerals as against 4 RPs covering an area of 3,509 sq km (8%). Four approved / executed for gold and associated minerals covering an area of 4066 sq km (15%) compared with three RPs covering an area of 1,872 sq km (4%). The mineral wise RPs approved / granted /executed during 2003-04 to 2005-06 are given in Table 20.

**Table 20: Reconnaissance Permits Executed during 2003-04 to 2005-06  
(By Minerals)**

Sl. No.	Mineral	2003-04		2004-05		2005-06	
		No.	Area (Sq.km.)	No.	Area (Sq.km.)	No.	Area (Sq.km.)

4	Diamond, Precious Stone and other associated minerals	12	19668.00	4	3509.35	-	-
5	Ilmenite, garnet etc.	1	1428.00	-	-	-	-
Total		23	31,456	27	42,834.50	20	26367.88

## 5.2 STATE -WISE DISTRIBUTION OF RECONNAISSANCE PERMITS

Orissa was leading in the number of RP's accounting for 9 RP's covering 1,11,64.80 sq.km. (43%) followed by Chhattisgarh 4 RP's covering 7083.00 sq.km. (27%), Rajasthan 3 RP's covering 3231.58 sq.km. (12%), Karnataka 2 RP's covering 3254.50 sq.km. (12%), Kerala 1 RP's covering 834.00 sq.km. (3%), Madhya Pradesh 1 RP's covering 800.00 sq.km. (3%). The Statewise distribution of approved / executed reconnaissance permits during 2005-06 is given in Table-21.

**TABLE -21 : STATEWISE RECONNAISSANCE PERMITS APPROVED/EXECUTED,  
2005-06**

State	No.	Area (sq km)	District
Chhattisgarh	4	7,083.00	Bastar, Dantewada, Durg,
Karnataka	2	3254.50	Chickmagalur, Chitradurga, Dhavangere
Kerala	1	834.00	Palakkad
Madhya Pradesh	1	800.00	Balaghat
Orissa	9	1,11,64.80	Bargarh, Bolangir, Kalahandi, Koraput, Malakangiri, Navarangpur, Navapara, Sundergarh
Rajasthan	3	3232	Ajmer, Bhilwara, Chittorgarh, Dungarpur, Rajasmand and Udaipur
<b>Total</b>	<b>20</b>	<b>26367.88</b>	<b>22 districts</b>

### 5.3 AREA-WISE DISTRIBUTION OF RECONNAISSANCE PERMITS

M/s BHP Khanij Anveshan Pvt. Ltd. held maximum area of 7083.00 sq km under 4 RPs followed by M/s AMIL India Pvt. Ltd 6981.80 sq.km under 5 RPs, M/s. ACC RIO TINTO Exploration Ltd., 4183 sq. km under 4 RPs., M/s De Beers India (P) Ltd 3254.50 sq.km. under 2 RP's, M/s Crown Mining (P) Ltd., 2576.88 sq.km. under 2 RP's., M/s. Metal Mining India Ltd., 654.70 sq.km. under 1 RP, M/s. Deccan Gold Mines Ltd., 834 sq.km. under 1 RP., and M/s. Metmin Finance & Holding Pvt. Ltd. 800 sq. km under 1 RP. The company wise details about area approved / executed during 2005-06 is given in Table -22. The Reconnaissance Permits granted/executed during 2005-06 are furnished in Table 23.

**TABLE - 22 : COMPANY-WISE DISTRIBUTION OF RECONNAISSANCE PERMITS DURING, 2005-06**

Company	No.	Area (sq km)	District/State
