

## BEST PRACTICES FOLLOWED BY MYSORE MINERALS LIMITED

### 1.MINE WORKING (LIMESTONE MINE IN BAGALKOT DISTRICT)

CHIKKASHELLIKERE LIMESTONE MINES

### **Lokapura Limestone Mines(West)**

The Mining operation are Semi Mechanized & Manual. Our benches are maximum of 6m height 10m width which is at statutory limit. There is no danger of slope failure in our mines. However, We are maintaining our benches as per statutory limit and regularly survey are conducted for monitoring of bench design.

### 2. DUST SUPPRESSION

Water Tankers are used for dust suppression at haul roads & mine workings.

#### 4 BLASTING

In our Mining Operation there is no deep hole blasting, we have conducting short hole blasting by using electrical Detonator. There is no much vibration during blasting.

#### 5. DUMPS STABILIZATION

The dump are stabilized by plantation, the plantation are maintained regularly through watering & retaining walls are constructed at the toe of dumps to avoid erosion of the waste material.

#### 6. OTHER SAFETY WORKS

Parapet walls are constructed all along the lease boundary to avoid inadvertent entry of persons in the mine.

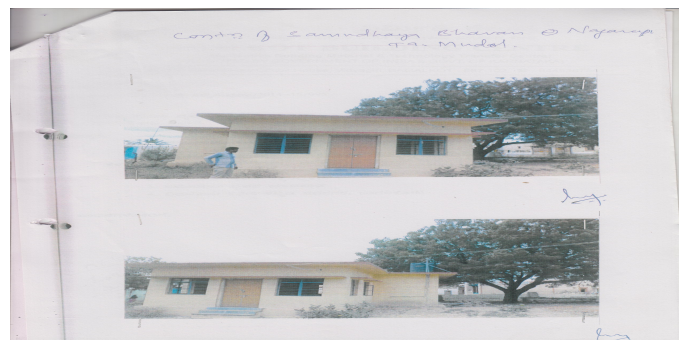

## 7. CONTRIBUTION TO SOCIETY

The company has done welfare to the society through CSR works in and around the villagers near the mine.

**SAMUDAYA BHAVAN CONSTRUCTED AT CHIKKASHELLIKERE**

**LOKAPUR LIMESTONE MINES(W)
