

INDIAN BUREAU OF MINES

--:-- Inspection Report --:--

Part-I : General Information

1.1.1 Mine Details

Name of the Mine :	38APR09001	Lease Area (Ha) :	360.26
Forest Area (Ha) :	230	Mine Code :	38APR09001
Registration Number :	IBM/441/2011	Name of lessee :	ULTRATECH CEMENT LIMITED
Address of lessee :	B Wing, Ahura Centre, 2nd Floor ,Mahakali Caves Road, Andheri (East),	Phone of lessee :	022-66917800
Email of lessee :	Vishnu.vasu@adityabirla.com	Fax Number :	N/A
Village :	Palakurthy (Ct)	Taluka / Mandal :	Palakurthy
District :	Peddapalli	Pincode :	400093
State :	Telangana	Post Office :	N/A
Nearest Police Station :	Basanthnagar	Nearest Railway Station :	Raghavpuram
Date of Grant of Mining Lease :	2025-02-24	Date of Mining Lease Execution :	2025-02-22
Date of opening in the mine :	1966-08-16		

Nominated Owner Details			
Name of the Nominated Owner :	Mr Kailash Chandra Jhanwar	Nominated Owner Address:	Ultratech Cement Ltd, Ahura Centre, Andheri East
Nominated Owner Mobile :	9702474200	Nominated Owner Email :	Ajit.ostwal@adityabirla.com
Nominated Owner Fax Number :	Nil	Date of Nominated Owner Appointment :	2019-09-04
Mining Engineer Details			
Name of the Mining Engineer :	M.Saikumar	Qualification of Mining Engineer :	B.Tech.Mining
Address of Mining Engineer :	Staff Colony,(Vi) Basantnagar, Palakurthy-Tq, Peddapalli-Dist, Telangana.	Phone of Mining Engineer :	8106770111
Email of Mining Engineer :	Bocw.mines@adityabirla.com	Fax Number of Mining Engineer :	N/A
Date of Mining Engineer Appointment :	2025-04-05		
Geologist Details			
Name of the Geologist :	Shivam Gupta	Qualification of Geologist :	Msc. Geology.
Address of Geologist :	Staff Colony,(Vi) Basantnagar, Palakurthy-Tq, Peddapalli-Dist, Telangana.	Phone of Geologist :	8085437018
Email of Geologist :	Bocw.mines@adityabirla.com	Fax Number of Geologist :	N/A
Date of Geologist Appointment :	2025-04-02		
Mine Manager Details			
Name of the Mine Manager :	T. Sudharshana Reddy	Qualification of Mine Manager :	B.Tech. Mining
Address of Mine Manger :	Staff Colony,(Vi), M/s Ultratech Ltd, Basantnagar, Palakurthy-Tq, Peddapalli-Dist,	Phone of Mine Manger :	8142211888

	Telangana.		
Email of Mine Manger :	Sudarshanareddy.t@adityabirla.com	Fax Number of Mine Manger :	N/A
Date of Mine Manger Appointment :	2023-02-24		
Mineral(s) granted in lease and proved for mining :	LIMESTONE	Date of Approval of Mining Plan / Modified Mining Plan / ROMP with five-year period :	2025-11-13 (2026 - 2029)
Method of mining :	Open Cast	Category :	MECHANISED
Nature of Use :	Captive		

Part-II : Other Information

2.1.1 : Inspection Details

Inspecting Officer :	MK KALMATA
Designation :	RMG
Name of the Accompanying Official from Mine :	T. Sudharshana Reddy
Designation of the Accompanying Official :	Mines Manager
Type of Inspection :	MPAS
Date of Inspection :	14/10/2025
Review year considered for MCDR Inspection :	2024-2025

2.2.1 : Exploration Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Number of Core Boreholes	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: So far, 114 core holes have been drilled, with a total meterage of 6154 meters. Remark File: NIL					
2	Number of DTH Boreholes	None in the year 2024-25.	None in the year 2024-25. However, lessee has drilled 30 exploratory bore holes from 1-07-2025 to 01-10-2025 to a total depth of 1317 mtrs.	None.	No Violation
Remark: So far, 30 Non-core holes (DTH) have been drilled, with a total meterage of 1317 meters. Remark File: NIL					
3	Number of exploratory pits / trial pits	None in the year 2024-25.	None in the year 2024-25.	Not applicable.	No Violation
Remark: No exploratory pits or trial pits have been made so far. Remark File: NIL					
4	Number of exploratory Trenches	None in the year 2024-25.	None in the year 2024-25.	Not applicable.	No Violation
Remark: No exploratory trenches have been made so far. Remark File: NIL					
5	Lateral exploration status for the lease area - G1	None in the year 2024-25.	None in the year 2024-25.	Not applicable.	No Violation
Remark: The total lease area is 360.26 hectares, of which 190 hectares are mineralized. The entire mineralized area has been explored at the G-1 level by drilling 144 exploratory boreholes, totaling 7471 meters in depth.					

Remark File: NIL					
6	Lateral exploration status for the lease area-G2	None in the year 2024-25.	None in the year 2024-25.	Not applicable.	No Violation
Remark: Entire Mineralized area is already explored under G-1 level. Remark File: NIL					
7	Lateral exploration status for the lease area-G3	None in the year 2024-25.	None in the year 2024-25.	Not applicable.	No Violation
Remark: Entire Mineralized area is already explored under G-1 level. Remark File: NIL					
8	Lateral exploration status for the lease area-G4	None in the year 2024-25.	None in the year 2024-25.	Not applicable.	No Violation
Remark: Entire Mineralized area is already explored under G-1 level. Remark File: NIL					
9	UNFC category wise reported Resources/Reserves as per MP/MMP ROMP Total Reserves (111, 121 & 122) and Total Mineral Resources (331, 332 & 333 upto 334)	(As per the approved document (MMP) dated, 16-06-2021) (In Million tonnes) (As on 31-03-2021) Total Reserves:- 9.72 Total Mineral Resources:- 8.71 Grand Total:- 18.43	Recently lessee has got approval for RMP on 13/11/2025 and as per the recent approved document position of reserve/resources is as follows, (As on 01/10/2025) (In million tones) Total Reserves:- 87.039 Remaining Resources:- 24.695 Grand Total:- 111.734	Not applicable.	No Violation
Remark: Lessee has re-estimated the reserves based on the exploration carried out during the last five year block period and has updated the reserves/resources in the recently approved RMP dated 13-11-2025. Remark File: NIL					

Final Submitted

2.3.1 : Development - Opencast Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Location of development w.r.t. lease area	In the year 2024-25, there was a proposal to work in five blocks Block E,F,G,H & I.	Actual working has been carried out In all the proposed blocks. However, in Block F,I and H deviation in working has been observed.	In the F and I blocks working has been extended beyond the proposed area in the Southern side and in Block H Working has been extended beyond proposed area in the North-Western part.	No Violation
<p>Remark: The previous inspecting officer had issued a violation for deviation in working, and the lessee has updated the status of current workings in the approved RMP dated 13-11-2025. Therefore, no fresh violation was pointed out during the current inspection. Remark File: NIL</p>					
2	Quantity of overburden generation in m3	9,46,070, in the year 2024-25.	11,95,460 in the year 2024-25.	+249390 (Overburden is handled more than the proposal). Since the working was extended beyond the proposed area, the waste handled exceeded the proposed quantity.	No Violation
<p>Remark: Overburden has been handled in excess of the proposal. However, the lessee has updated the actual working in the RMP approved on 13-11-2025, so no fresh violation was pointed out during the current inspection. Remark File: NIL</p>					
3	Quantity of topsoil generation in m3	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
<p>Remark: The topsoil; removed earlier is utilized for plantation and about 250 cum is stacked separately for future use. Remark File: NIL</p>					
4	Stripping ratio : ore to OB ratio	1.25	2.95	+1.7	No Violation
<p>Remark: The lessee has updated the actual working and the reasons for deviation in the RMP approved on 16-09-2025, so no violation was pointed out during the current inspection. Remark File: NIL</p>					

2.4.1 Exploitation - Opencast Mine Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Number of pits / Blocks proposed for production	In the year 2024-25, there was a proposal to work in One pit only. (As the pit length is extensive, the proposals have been divided into five blocks for ease of identification and to maintain the required quality of plant feed.)	Actual working has been carried out in all the proposed blocks. However, in three blocks working was extended beyond the proposed limits.	In the F and I blocks working has been extended beyond the proposed area in the Southern side and in Block H Working has been extended beyond proposed area in the North-Western part.	No Violation
<p>Remark: The previous inspecting officer had issued a violation for deviation in working, and the lessee has updated the status of current workings in the approved RMP dated 13-11-2025. Therefore, no fresh violation was pointed out during the current inspection. Remark File: NIL</p>					
2	Quantity of ROM mineral production proposed (in T)	2699750 tonnes in the year 2024-25.	1443000T	-1256750T, The ROM quantity shown includes 30% interburden (waste rock) and not mineral reject (above threshold value). In the approved document, the proposed ROM is shown inclusive of 30% interburden waste rock and not the mineral reject. Accordingly, in the Annual Returns, only limestone production is shown under ROM, and the 30% interburden generated during ROM handling is shown along with OB.	No Violation
<p>Remark: The ROM quantity shown is including 30% interburden waste rock and not the Mineral reject. In the approved document ROM is shown including the 30% intercalated waste. Remark File: NIL</p>					
3	Recovery of salable/usable mineral quantity from ROM production in T)	1889825 tonnes in the year 2024-25.	1010000T	-879825T	No Violation
<p>Remark: Recovery is 100%, so the entire ROM produced is dispatched to the captive plant linked with the lease for cement-grade use. Remark File: NIL</p>					
4	Quantity of mineral reject/Sub-grade generation	809925 tonnes in the year 2024-25.	433000T	-376925T.	No Violation
<p>Remark: As explained earlier, the quantity shown under mineral reject is interburden waste rock and not mineral reject (above threshold value). Since there is no provision in the Mining Plan format to show interburden generation within the mineralized zone, the waste rock generation has been shown under mineral reject. Remark File: NIL</p>					

5	Grade of mineral reject/sub-grade generation as per threshold value declared	Cao below 34%	Cao below 34%	None. As explained earlier, the quantity shown under mineral reject is interburden waste rock and not mineral reject (above threshold value). Since there is no provision in the Mining Plan format to show interburden generation within the mineralised zone, the waste rock generation has been shown under mineral reject.	No Violation
<p>Remark: The lessee was advised to carry out proper chemical analysis of the waste dumps existing within the lease area to assess the recovery potential of any mineral having CaO% above the threshold limit Remark File: NIL</p>					
6	Manual/Mechanised method adopted for segregating subgrade/mineral rejects from ROM	None.	None.	None.	No Violation
<p>Remark: The lessee is not carrying out any segregation and is sending the entire ROM (Limestone) to the crushing/screening plant located in the plant area. Remark File: NIL</p>					
7	Whether height of benches in Overburden & mineral suitable for method of mining proposed in mining plan	In the year 2024-25, bench proposed in ore & OB 09.00Mtrs .	Maintained a bench height of 7.00 to 9.50 metres in OB and 7.00 to 9.00 metres in ore.	Maintained bench height almost within the proposed limits and suitable for the adopted method of mining.	No Violation
<p>Remark: None. Remark File: NIL</p>					
8	Any analysis or beneficiation study proposed & carried out for sub-grade mineral and reject	None.	None.	None.	No Violation
<p>Remark: None. Remark File: NIL</p>					

Final Submitted

2.4.3 : Exploitation - Dump Working Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Number of dumps proposed for production	Two dumps for re-handling of siliceous limestone (Having Cao% below 34%) for use as minor mineral for manufacture of Aggregates/M sand and Road metal.	None.	No working has been carried out as proposed.	No Violation
Remark: Since the State Government was not given permission the said dump handling was not carried out. Remark File: NIL					
2	Quantity of dump material handling Proposed (in Tonne)	574862 tonnes in the year 2024-25.	None.	- 574862(No dump working has been carried out in the year 2024-25)	No Violation
Remark: Since the State Government was not given permission the said dump handling was not carried out. Remark File: NIL					
3	Recovery of salable/usable mineral from dump production (in Tonne)	574862 tonnes in the year 2024-25.	None.	- 574862(No dump working has been carried out in the year 2024-25)	No Violation
Remark: Since the State Government was not given permission the said dump handling was not carried out. Remark File: NIL					
4	Production from dump(s) during the year	None.	None.	None.	No Violation
Remark: None. Remark File: NIL					
5	Quantity of mineral reject generation	None.	None.	None.	No Violation
Remark: None. Remark File: NIL					
6	Grade of mineral reject	Not applicable.	Not applicable.	Not applicable.	No

	generation and threshold value declared				Violation
Remark: None. Remark File: NIL					
7	Any analysis or beneficiation study proposed & carried out for mineral reject	None.	None.	None.	No Violation
Remark: None. Remark File: NIL					
8	Manual / Mechanized method adopted for dump working	Mechanized with combination of excavator and dumpers.	None.	None.	No Violation
Remark: Since the State Government was not given permission the said dump handling was not carried out. Remark File: NIL					

2.5.1 : OB/Waste Dumps Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Separate dumping of topsoil, OB & mineral rejects, fines, tailings (Rule 36,37)	Yes proposed separate dumps for OB (waste)	The waste rock generated during the year 2024-25 is stacked separately.	None.	No Violation
Remark: None. Remark File: NIL					
2	Location of Topsoil, OB/Waste, Mineral Reject dumps, Tailings and Fines	During the year 2024-25, waste dumping was proposed on the existing G-1 and H-2 dumps located in the north-western part of the lease area, near boundary pillars BP-35 to BP-39	During the year 2024-25, actual dumping was carried out on the existing waste dump G-2, which is located on the north-eastern side of the lease area near boundary pillars BP No. 10 to 56. In	The dumping was not carried out as per the approved proposal. It was observed that Dump No. E-1 has extended beyond the safety zone, possibly during previous years, towards the Takkalapalli	No Violation

			addition, a small quantity of waste was dumped near boundary pillar No. 43.	lease area of the same lessee.	
<p>Remark: The mine was recently inspected by the ACOM, during which a violation was pointed out. Subsequently, the lessee updated the actual dumping status in the approved RMP dated 13-11-2025. So, no fresh violation was pointed out during the present inspection. Remark File: NIL</p>					
3	Number of active & Inative dumps	Two active dumps were proposed for the year 2024-25.	The number of dumps made during the year 2024-25 is as per the approved proposal. Further, a total of six active waste dumps exist within the lease area.	There is no deviation in terms of the number of dumps; however, the waste dumping locations were not as per the proposal.	No Violation
<p>Remark: The mine was recently inspected by the ACOM, during which a violation was pointed out. Subsequently, the lessee updated the actual dumping status in the approved RMP dated 13-11-2025. So, no fresh violation was pointed out during the present inspection. Remark File: NIL</p>					
4	Number of dead dumps	None in the year 2024-25	None in the year 2024-25	None.	No Violation
<p>Remark: None. Remark File: NIL</p>					
5	Number of dumps proposed for stabilished	None in the year 2024-25	None in the year 2024-25	None.	No Violation
<p>Remark: None. Remark File: NIL</p>					
6	Stabilization Technique (Terracing, plantation, geo-textiles etc.)	None in the year 2024-25	None in the year 2024-25	None.	No Violation
<p>Remark: None. Remark File: NIL</p>					

2.6.1 : Solid Waste Management - Backfilling (Opencast) Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Status on part or full extraction of mineral from mined out area before starting backfilling	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: Earlier, about 9.6Ha of mineral exhausted area is backfilled in North-eastern side of the lease area. Remark File: NIL					
2	Year-wise area under backfilling of mined out area	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: Earlier, about 9.6Ha of mineral exhausted area is backfilled in North-eastern side of the lease area. Remark File: NIL					
3	Year-wise topsoil generation, Utilization and Stored proposal (in m3)	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: The topsoil removed earlier has been stored separately for future use. Remark File: NIL					
4	Total area fully reclaimed & rehabilitated	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: Earlier, about 9.6Ha of mineral exhausted area is backfilled in North-eastern side of the lease area. Remark File: NIL					
5	Locations of proposed reclamation & rehabilitated	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: Earlier, about 9.6Ha of mineral exhausted area is backfilled in North-eastern side of the lease area. Remark File: NIL					

Final Submitted

2.7.1 : Progressive Mine Closure Plan (PMCP) Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Compliance on reclamation and rehabilitation by backfilling/Other means Total area and numbers of plantation proposed.	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: Earlier, about 9.6Ha of mineral exhausted area is backfilled in North-eastern side of the lease. Remark File: NIL					
2	Rehabilitation by making water reservoir	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: About 5.5 ha of the mining pit (southern part of the lease), containing low-grade ore, has been temporarily converted into a water reservoir. Remark File: NIL					
3	Compliance of Rehabilitation of waste land within lease i) Afforestation ii) Area rehabilitated (ha) iii) Method of rehabilitation	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: Earlier, about 32.85 ha was covered by plantation, out of which 9.6 ha is reclaimed area and the remaining plantation is on wasteland existing within the lease area, including the 7.5 m safety zone and the total plantation carried out so far is 178,325 saplings. Remark File: NIL					
4	Compliance of Environmental monitoring (core zone & buffer zone)	Yes, Air, Water and Noise monitoring was proposed in Core and Buffer zone.	Environmental monitoring in the core and buffer zone is carried out as per the proposal and result are within permissible limits.	None.	No Violation
Remark: Environmental monitoring is carried out by Universal Enviro Associates., Hyderabad.					

Remark File: NIL

2.8.1 : Mineral Conservation Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	ROM Mineral dispatch or grade-wise sorting within lease area	Proposed dispatch of Cement grade ROM to Captive Cement Plant.	Dispatching Cement Grade limestone to the Captive plant attached to the lease.	None.	No Violation
Remark: None. Remark File: NIL					
2	Different grade of mineral sorted out at mines	Cement Grade.	Cement Grade.	None.	No Violation
Remark: Lessee is dispatching Cement grade limestone to Captive plant. Remark File: NIL					
3	Any beneficiation process at mines	None.	None within the lease area.	None.	No Violation
Remark: The lessee is sending ROM to the crushing plant located near the Cement plant for size reduction. After crushing, the material is fed into the main plant (Cement plant) . Remark File: NIL					
5	Utilization of Mineral Rejects or Sub-grade (Blending at ROM stage, Blending after Processing etc.)	None.	None.	None. Lessee is utilizing the entire ROM by blending low-grade material with high-grade material as per the requirement of the plant.	No Violation
Remark: NIL Remark File: NIL					

2.9.1 : Environment Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Separate removal and utilization of topsoil	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: The topsoil removed earlier is utilized for plantation work within the lease area and a small quantity is stacked separately in the earmarked area for future use. Remark File: NIL					
2	Use of overburden, waste rock, rejects and fines dumps for restoring the land to its original use	None.	None.	None.	No Violation
Remark: None. Remark File: NIL					
3	Phased restoration, reclamation and rehabilitation of lands affected by mining operations (Pits, dumps etc)	None.	None.	None.	No Violation
Remark: None. Remark File: NIL					
4	Plantation & Survival rate	None in the year 2024-25.	None in the year 2024-25.	None.	No Violation
Remark: Total plantation carried out so far is 178,325 saplings and survival rate to 70 to 75%. Remark File: NIL					
5	Water sprinkling on	Yes proposed.	To control airborne dust, the lessee is regularly	Nil	No

roads to control airborne dust	spraying water on haul roads and within mining	Violation
<p>Remark: Dust suppression is being carried out using a 10,000-litre capacity water tanker. Remark File: NIL</p>		

2.10 : Annual Return Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Submission of Online Monthly and Annual returns in prescribed period or not	A monthly return shall be submitted before the tenth day of every month in respect of the preceding month and an annual return shall be submitted before the 1st day of July each year for the preceding financial year.	Submitting Monthly and Annual returns within the time limit.	None.	No Violation
<p>Remark: Submitted Annual returns for the year 2024-25 on 10-06-2025 and Submitted Monthly returns up to September 2025. Remark File: NIL</p>					
2	Appointment of Mining Engineer & Geologist as per provisions of Rule 55 of MCDR,2017	As per Annual returns submitted to this office for the year 2024-25, the details of Mining Engineer and Geologist are as follows. Mining Engineer: M.Ravi and Geologist:- B.Sadasiva Rao	The Mining Engineer and Geologist present during the inspection were M. Saikumar and Shivam Gupta.	The information furnished in the annual returns is found to be correct. However, in the month of April 2025, Lessee has appointed Saikumar and Shivam Gupta as the Mining Engineer and Geologist and submitted the notice of appointment to this office.	No Violation
<p>Remark: Advised the lessee to update the details of the Mining Engineer and Geologist appointed in the month of April 2025 in the annual returns being submitted for the year 2025&ndash;26. Remark File: NIL</p>					
3	Whether incomplete or false or wrong returns submitted (Rule 45(7))	Lessee has to submit all the information correctly in the returns.	1)Reserves/resources and exploration details are not furnished properly. 2) The KMI files are not furnished correctly and furnished incomplete data in the PMCP sheet. Advised lessee to update reserve/resources and exploration data as per the approved document dated 13-11-2025.	Advised lessee to update reserve/resources and exploration data as per the approved document dated 13-11-2025.	No Violation
<p>Remark: Since the violation notice was already issued by the previous inspecting officer, no fresh violation was pointed out based on the current inspection, and the lessee was advised to rectify the</p>					

same. Remark File: NIL					
4	Status of Approval of FMPCP u/r 24, 25 of MCDR,2017	Not applicable	Not applicable	Not applicable	No Violation
Remark: The lease is valid for more than two years and submission of Final Mine closure Plan is not applicable. Remark File: NIL					
5	Notices and Returns for the lease area submitted or not where fine applicable	Notice of appointment for appointing Mining Engineer and Geologist.	Submitted form H for appointment of Mining Engineer and Geologist.	None.	No Violation
Remark: The lessee has submitted all applicable notices and returns to this office. Remark File: NIL					
6	Scrutiny of Annual return on sale value, Ex. Mine price & production cost	Sale value, cost of production and ex-mine price is shown as Rs 496.81/T	The information furnished is almost found correct.	None.	No Violation
Remark: The mine is captive, and the ore produced is utilized exclusively for the captive plant. Therefore, the sale value has been calculated by multiplying the dispatch quantity by the cost of production. Remark File: NIL					

2.11 : SDF Details

S.N	Items for Reporting	As Per Approved Mining Plan	Actual	Deviation	Violation under Rule
1	Start Ratings accorded for mine during last 3 years	The applicant submitted a self-assessed 5-star rating for the year 2022-23 to 2024-25.	After validation, the reporting mine has remained a 4-star rated mine from 2022-23 to 2023-24, and validation for the year 2024-25 is yet to be done.	None.	No Violation
Remark: The lessee has been maintaining a minimum three star rating as required under Rule 35(4A) of the Mineral Conservation and Development Rules (MCDR) 2017. Remark File: NIL					

Part-III : Other Reports
