CURRENT CONTENT

(Technical Journals)

(A Monthly Current Awareness Service from Technical Journals)

Vol. 10 No. 07, July, 2026

The Central Library, IBM, Nagpur is subscribing the technical journals and also receiving them on complimentary basis on various subjects like Geology, Mining, Mineral Economics etc. These Technical Journals make up an important collection of latest scientific information. The library is rendering Reference Service to its users from these technical Journals (Article Indexing is one of them). Central Library, IBM provides Current Content Service from these technical journals in the name of "GEM" since 2006 on half yearly basis in print form. To expand this service to the IBM Offices all over India i.e. H.Q., Zonal & Regional Offices and to take a call of time, the Controller General, IBM desired to make this service online on monthly basis. The library staff made efforts to make it successful. This is the 7th issue of Volume-10 for this service named "तकनीकी पत्रिका विषय - सूची" (Current Content- A Monthly Current Awareness Service from Technical Journals) Vol. 10 No.07, July, 2026.

It will be highly appreciated if the valuable feedback is reciprocated. If some article as per content list is found to be of use by the reader the same may be requested and the library will send the scanned copy of the article to the interested reader.

Cover

A 3D schematic diagram showing plate-tectonic model to account for the fluid pathways advecting from dehydrating subducting oceanic crust/lithosphere (OL). The initial accretion of the Palaeo and Mesoproterozoic parts of the DC appears to have been triggered by mantle plume-derived magmatic diapirs and subsequently deformed by gravitational sinking (Sagduction) of the greenstones. M=Moho. MW=Mantle Wedge. For details see pages 891-904.

Minerals & Metals Review, Vol. 52 No.7, July 2026

**FOCUS ON
RECYCLING**
09 Market Reports**22 Policy View**

Auto-shredding policy: Reshaping scrap availability and quality in India

24 Recycling

India's next mine is not underground - it's the 'urbanground'

Scrap recycling acts as backbone of India's circular economy and supports its net zero goals

Metal scrap recycling - opportunities & challenges

Unlocking the non-ferrous frontier: The macro case for Al & copper recycling

36 Insights

Formal vs informal recycling: India's high-stakes transition towards an organised scrap economy

Technology, automation to rule the future of metal recycling in India

42 Alloy Evolution

Aluminium alloys beat expectations in providing smart and sustainable engineering solution

51 Raw Material

Ferrous scrap v/s iron ore: The cost and carbon battle reshaping steelmaking

53 Market Outlook

Global scrap market outlook: Ferrous and non-ferrous trends reshaping the metals industry

58 Critical Minerals

India pushes critical minerals recycling with new processing scheme

63 Perspective

From mines to highways: How smart filtration is transforming fleet performance

65 Sustainability Corner

Circular economy in metals: Turning scrap into India's strategic resource base

69 Product Profile

SPECTRO unveils SPECTROPORT LIBS PXL01 for advanced portable metals analysis

70 Book Review

The Intelligent Factory — A Practical Guide to Unlocking AI for India's MSMEs

71 Events

Bharat Metal Exchange marks historic transition, unveils circular economy vision & strategic NSE alliance

AIFI strengthens eastern India presence with Jamshedpur session on smart forging and energy efficiency
